

## Rush Aid To Polio Stricken Areas In State

(By the Associated Press)  
Emergency medicine and equipment have been rushed to Appleton and West Allis, Wisconsin areas hit hardest by polio this year, following five more deaths.

Three deaths were reported in the Fox river valley area and an additional two in the Milwaukee area.

The Fox river valley victims were:

Phyllis Cardinal, seven, who was dead on arrival at St. Vincent's hospital at Green Bay shortly after midnight today. She was the daughter of Alton L. Cardinal of Green Bay. Her death was the second this season in Green Bay and Brown county.

Father Of Four Dead

Kenneth Sorenson, 25, Neenah, father of four small children who died at St. Elizabeth's hospital in Appleton, and

LeRoy Giese, 19, of Green Bay, who died at St. Vincent's hospital.

Milwaukee area victims were: James Knasinski, 14, son of Mr. and Mrs. Max Knasinski, of West Allis, who died at Columbia hospital in Milwaukee, and Fred Lindemann, 30, of Whitefish Bay. He died at Milwaukee's South View hospital.

At Wausau, 13-year-old Sherwood Gilson of Merrill died at the isolation hospital Thursday of bulbar polio. The son of Mr. and Mrs. Raymond Gilson had been ill about a week. It was the first polio death in Wausau this season.

Gamma globulin was rushed to West Allis Thursday for mass inoculation of all children under the age of 11 years.

Iron lungs were rushed to the Fox river valley region by the National Foundation for Infantile Paralysis. Four of the lungs were sent to St. Elizabeth's hospital at Appleton and three to St. Vincent's at Green Bay giving the hospital a total of six.

**New Cases**  
The twin cities of Neenah and Menasha reported two new cases of polio Thursday to push their combined total to 24.

Five new cases were added to the list in Outagamie county raising the total to 100.

Two new cases were reported in Brown county and there are now 31 cases in the area including Brown, Kewaunee, Door and Shawano counties.

At West Allis the health commissioner, Dr. E. V. Braumbaugh, said the gamma globulin inoculation program will be started early next week, possibly Monday. It's being supplied by the national foundation.

He described the situation as "very bad—by far the worst we've ever had." The city has reported 34 cases and five deaths, he said, compared to two cases with no deaths last year.

## Pull 12 More Clay Cars Into Kohler Plant

**Sheboygan**—(AP)—Twelve more clay-loaded freight cars passed a token picket force early today as they were moved out of the Sheboygan rail yards into the nearby Kohler Co. plant.

Sixty-three of an estimated 72 cars now have entered the huge plumbware plant where local 833 of the CIO United Auto Workers went on strike 16 months ago today.

There was no incident connected with today's rail movement which was handled, as before, by supervisory personnel of the North Western railroad because the regular crews refused to pass the picket lines set up at two crossings here.

The companies which owned the clay aboard the ships filed charges of secondary boycott against 12 labor organizations Thursday.

Parent-makers Importing Co. of Easton, Pa., and Hammill and Gillespie, New York city, filed the charges with national labor relations board regional office in Chicago.

The union groups are alleged to have induced various employees to engage in a concerted refusal to handle products of the two firms and to cause the companies to cease doing business with Kohler Co.

Labor organizations named in the charges include local 833, UAW-CIO, the Wisconsin CIO council and the Wisconsin State Federation of Labor.

Picketing at the plant continued orderly today following collapse of talks between company and union officials in Chicago Tuesday.

**WALK TO FREEDOM**—Col. John Knox Arnold, Jr., 41, accompanied by Lieut. Col. O. W. D. Simpson, Smithfield, W. Va., (right), US air attaché in Hong Kong, walks across the 200-foot border bridge from Communist China into Hong Kong. Col. Arnold is one of 11 US airmen, captives of the Chinese Communists two and one-half years, who were released. Directly behind on crutches, is Maj. William Baumer, 32, Lewisburg, Pa., one of those freed and who was wounded just before his capture. The men unidentified, comprise the crew of a B-29 shot down over Korea.

## 30 Killed When Bid For Landing Fails

**Ft. Leonard Wood, Mo.**—(AP)—A pilot kept his crippled American airlines plane aloft for more than 30 miles in a desperate bid for a safe landing yesterday but crashed just short of his goal.

All 30 persons aboard were killed.

"Just a little more and he would have made it," said an eyewitness, Lt. A. J. Brewster of Ft. Leonard Wood. "The plane came in very low over a housing area, then banked steeply and headed for the post airport."

"One engine was trailing flame and smoke. Then over a wooded area, the right wing fell off."

The airliner crashed on the edge of this sprawling army post. It was the second time within 10 months the pilot—Capt. Hugh Barron, Tulsa, Okla.—had tried for an emergency landing. Last Nov. 9 he was credited with saving the lives of 40 passengers on another crippled plane.

Most of the bodies in yesterday's crash were burned too badly for quick identification.

**Half-Mile Away**  
The twin-engine Convair, with 27 passengers and three crewmen, was only half a mile from the post's Forney airport when it lost its right wing and plummeted into a heavily timbered gully. Hours later the wreckage was still smoldering.

Numerous eyewitnesses at Lieber Heights, where some 6,000 people live, saw the plane streak overhead in sunny weather at an altitude estimated variously at from 200 to 500 feet.

Pvt. Beverly Streeter, a Waco from Asbury Park, N. J., said she saw the plane over the housing area seconds before the crash.

"Flames were pouring from the engine, and the whole underside of the ship seemed swept by fire," she said. "It was terribly low but it was headed for the airport and we thought it might make it."

"Then there was a series of muffled explosions. Sparks fell from the plane and it disappeared behind the woods."

Earlier, smoke was seen pouring from one of the engines at Lebanon, Mo., 30 miles away.

**See Wing Break**  
Several other eyewitnesses reported seeing the right wing break from the plane. The wing was found on a hill a quarter of a mile from the main wreckage.

Army officials said the plane had been making a perfect landing approach to Forney field's north-south runway when it disintegrated.

The dead included eight women, two children and a Catholic priest, Rev. George L. Krock, 47, Maryknoll, N. Y.

One of the victims was a Milwaukee, Wis., girl.

She was identified as Miss Karen Franks, 14, daughter of Mr. and Mrs. Earl Franks. The passenger list carried her name but gave her a Missouri address.

Karen, a junior high school student, had been visiting her grandmother in Missouri for several weeks.

Investigators declined to speculate on the cause of the crash.

In his successful landing last Nov. 9, Barron was piloting a Convair when the landing gear jammed over Chicago's Midway airport. For an hour he circled the airport trying to get his wheels down. Then he came in for an emergency landing at the Greenview naval air station north of Chicago. None of the 40 passengers were injured.

**Commission To Meet**  
The police and fire commission will meet Monday at 7 p. m. at the city hall for its regular monthly meeting.

## Eleven In Tokyo For Thorough Medical Checkup

**Tokyo**—(AP)—Eleven freed freedom-relishing US airmen, who denounced Red Chinese charges of "spying," landed here tonight on their way home after 30 months in Communist prisons.

The fliers landed from Manila and were whisked to the base hospital.

The 11 were freed Thursday at Hong Kong in a surprise Communist action of which they first learned in their Peiping cells Sunday.

The prison-thinned fliers were brought here in two push C-54 transports. One was Gen. Douglas MacArthur's former personal plane Bataan. The other was the personally assigned plane of Gen. Lawrence S. Kuter, Far East air forces commander.

A FEAF spokesman said the men probably would remain in Japan several days for thorough medical checkup. He said they would return to the United States via the Alaska route, arriving at McChord air force base, Wash.

Two of 13 Red Cross packages ordered by relatives of nine of the men were delivered to Airman 2/C Daniel C. Schmidt of Redding, Calif.

## Three Claim State Slowing Uranium Hunt

**Milwaukee**—(AP)—Three men who claim there is a fortune in uranium somewhere under Wisconsin's soil contend that the state is discouraging uranium hunters with scolding.

One of them, William Frost, 33, of Clintonville (Waupaca county) has reported finding a "hot" uranium deposit near Big Falls in his home county. Another, Ryle (Red) Strong, 51, also of Clintonville, is drilling deposits near Frost's strike, and the third, Fred Heissner, 35, Milwaukee, is operations manager of the Badger Uranium Corp., a Utah mining outfit headed by Frost.

All three blame state law and lack of proper testing equipment for their slow progress. George F. Hansen, state geologist, has said his office lacks equipment to make exhaustive tests needed to prove commercial value.

"Every prospector who has shown interest in uranium in Wisconsin has been discouraged," Frost declared in an interview. Heissner claimed that state law will not allow a prospector to develop any finds on state owned property. He hinted that the legislature might be asked to change the state law and create a testing laboratory.

The trio admitted that all of the material found so far in Wisconsin has been secondary ore. They said 10 tons of uranium-bearing rock had been dug out of a Marathon county farm.

"But that secondary ore must have come from the pure form," Frost said. "We'll find it somewhere or someone else will."

**Buralar Gets \$57 At Filling Station**  
Sheriff Florian A. Krutz said this morning that \$57 in cash had been taken by a burglar who broke into the Texaco filling station on Highway 19 in Park Ridge operated by Horace Atkins, Jr.

Atkins discovered the theft when he opened for business this morning. The money had been in the cash register.

The sheriff said the thief entered the building by breaking a rear window.

# President Plans New Disarmament Offer

## Food Dealers' Convention Starts Sunday

The annual convention and trade exhibit of the Wisconsin Retail Food Dealers association will be held in Stevens Point from Sunday through Tuesday.

This will be the 55th annual convention of the association, an organization of independent grocers. Forty-five booths showing current trends in the food handling business will be set up in P. J. Jacobs High school, according to convention officials.

Fred E. Weinke, Milwaukee, executive secretary of the organization, said this would be the largest convention in the association's history. An attendance of 1,000 delegates is predicted.

**Thomson To Speak**  
Among a list of notables scheduled to appear at the convention are Vernon W. Thomson, Wisconsin's attorney general; Mrs. Glenn Wise, secretary of state; Johnny Logan and Ernie Johnson, Milwaukee Braves players; Miss Barbara Brown, Independence, "Alice in Dairyland," and Miss Dixie Sarchet, Stevens Point, last year's Miss Wisconsin.

The convention will open Sunday at 11 a. m. at the high school, where most of the activities will center during the three-day meeting.

The official opening will be at 1:30 p. m. Sunday, and Thomson will speak at 2 p. m. on "How Wisconsin Laws Affect Your Business." Assemblyman Eugene A. Toppel of La Crosse will discuss "Limiting Legislation" at 4 p. m. at the high school, and a dance is scheduled at 8 p. m. Sunday at Hotel Whiting.

Business sessions are scheduled Monday morning and afternoon at the high school, with election of officers and adoption of resolutions slated late in the afternoon.

**Braves Stars**  
A banquet will be held Monday evening at 6:30 at St. Peter's school auditorium. Logan and Johnson are scheduled to be at the banquet.

Further convention sessions are planned Tuesday morning with the meetings scheduled to wind up early in the afternoon.

Interspersed through the convention proceedings will be a number of social events and panel discussions.

One of the social events will be a ladies' luncheon at the Stevens Point County club Monday at 1 p. m., at which Mrs. Wise will be a speaker. A card party will follow.

Robert Pavlik of Stevens Point will be moderator of a panel discussion on meat merchandising Sunday at 2:45 p. m. at the high school, and Orville Gorges of this city will be one of the members of the panel.

John Jonas of Stevens Point will act as moderator of a produce panel Monday at 10:15 a. m. at the high school.

The city's welcome to the convention delegates will be given by Mayor Leonard L. Sorenson and James R. Boston, president of the Chamber of Commerce, at Sunday afternoon's opening session. Rev. J. L. Pickett of the First Baptist church will give the invocation.

Robert E. Connolly of Superior is president of the Food Dealers association.

**Vote On Plover School Project Monday Night**  
A proposal to enlarge the Roosevelt school at Plover will be voted on by voters of that district No. 1 Monday night at 8 o'clock. The special meeting will be held at the St. Paul school.

At the district's annual meeting in July, voters authorized the school board to hire an architect and get cost estimates for the addition. The announced plan was to tear down the original frame part of the Roosevelt school and build an addition on a two-room concrete block section erected several years ago.

The addition would consist of six classrooms and possibly a kindergarten and opportunity room.

The district includes Whiting village, most of the town of Plover and a small part of the town of Buena Vista.

## VFW Announces Poppy Day Plans For Next Friday

Plans for the annual Poppy day drive to aid disabled veterans were announced today by Mrs. H. L. Sether and Mrs. Roman Kurzinski, of the ladies auxiliary to General McGlachlin post No. 568, Veterans of Foreign Wars. They are co-chairmen of the Poppy day.

Poppies will be sold on the streets next Friday, Aug. 12, with cards for business places distributed Monday.

The little red artificial flowers are made by disabled veterans, principally in veterans hospitals in all parts of the country. The auxiliary pays a nominal sum for the flowers, most of which are made as part of occupational therapy projects by the men.

A portion of the money collected is used nationally, but the largest part remains in the communities where it is collected to aid veterans, their widows and orphans, who need financial help to tide them over a difficult moment.

Part of the funds that go to the national organization are used to help support the VFW national home for widows and orphans at Eaton Rapids, Mich., a unique institution planned to offer a home-like atmosphere for the widows and orphans of ex-service-men.

## Propose Cutting Weeds On Lakes In County As Board Prepares To Meet

A proposal that the county provide for weed cutting at McDill pond and other lakes in the county will come before the county board of supervisors Tuesday when the board meets at the court house.

Supervisor Ernest Kluck, Whiting, advanced the resolution. Conservation Warden Harvey W. Mau will attend the meeting to explain what has been done in other areas to clear lakes of weeds.

Other items on the agenda for Tuesday include a report by the special court house committee as well as routine reports by other committees of the board.

This will be the first meeting of the board since a special resolutions committee was named to prepare an agenda before each board meeting.

## Agree On Terms For New Pact At Lullabye

Both sides yielded a little Thursday to bring about a settlement of differences regarding terms of a new one-year working agreement at the Lullabye Furniture Corp. A mediator from the federal mediation and conciliation service office at Milwaukee met here Thursday with representatives of labor and management. The result was a compromise that was accepted unanimously by members of local No. 333 B of the Upholsterers' International union at a meeting at the Union hall at 4 p. m.

Negotiations on a new contract started last April. The union's working agreement with the corporation expires today.

**Pay Bigger Share**  
Over the bargaining table Thursday, the firm agreed to pay as of July 1 this year two-thirds of the cost of the employees' insurance program. The company also pays one-third and the union demanded that the entire cost be borne by the company. The firm offered to take over the entire cost if its profits for the year equaled two per cent of sales or more but the union held out for an unqualified acceptance.

Also included in the new pact will be two additional paid holidays a year, making a total of four. The employees now are paid for Memorial day and July 4. The new agreement adds Christmas and New Year's day to the list. The union had asked for four more holidays.

In place of a 10-cent wage increase across the board, management at the plant has agreed to

## Still Hopeful Terms Can Be Reached

By JOHN M. HIGHTOWER  
Washington—(AP)—President Eisenhower plans to confront Russia soon with a new set of proposals for a disarmament inspection system.

Soviet Premier Bulganin rejected yesterday Eisenhower's offer to trade military blueprints with the Soviet Union and to allow aerial surveys, but the president said he doesn't understand that the premier closed the door on negotiation to end the arms race.

And Russia's reported recent atomic test explosions do not necessarily mean any change in the Soviet's friendly attitude toward the west, Eisenhower said.

He appeared at a news conference yesterday to be at least moderately optimistic that disarmament negotiations with Russia will eventually lead to agreements "fair . . . to both sides."

He replied to questions about Russia in the same cordial tones which characterized his talks with Bulganin at the Geneva summit meeting two weeks ago.

He spoke more sternly, however, on Red China and possible US recognition of that country. He made clear he is not interested now in any future summit meeting on Far Eastern problems, and he said of recognition:

"Several times I have stated that as long as Red China is branded as an aggressor by the United Nations, which it still is, due to the fact that its armies are in North Korea, we have no choice of our own about recognition, and I don't see how the United Nations has a choice of its own."

There are other outstanding complaints which I have outlined time and again, and I have no idea that under existing circumstances there would be a change . . . in our policy."

On the question of disarmament, Eisenhower said he proposed to Bulganin at Geneva that both a western proposal for comprehensive inspection in all disarming countries and the Russian proposition for check points be adopted. He said the Soviet plan "was all right with us" as part of a package, but that Bulganin did not accept his suggestion.

Bulganin, in an address to the supreme soviet, praised Eisenhower's intent as a contribution to peace. But he said the effect of this plan would not be "considerable," and that Russia's proposals were more "realistic."

The key Russian disarmament proposal put forth last May calls for an inspection system based on observation at transportation check points like railway centers and airports so as to detect preparations for aggression.

"Now," Eisenhower said, "we are engaged here in the beginning of developing methods by which we can tell, we can have great confidence, that the other fellow is doing (in disarming) exactly what he said he would do, and secondly, we would hope that this would be an approach toward real disarmament."

"Now, these are matters that take long examination by experts. I don't understand that the premier (Bulganin) closed the door, and I merely say we are ready to accept and examine any kind of system that looks fair to us and to both sides."

Before the foreign ministers meet again at Geneva, a United Nations disarmament subcommittee is due to reopen talks in New York Aug. 29. The United States, Britain, France, Canada and Russia will be represented. Eisenhower said "you can expect some new proposals" to be put forth by the United States at that meeting but they will be negotiable and none will be "final, fixed and rigid."

**Bulganin Says Russia Studying US Proposal**  
Moscow—(AP)—Premier Bulganin said today his government will continue to study President Eisenhower's proposal for an exchange of military information and mutual aerial inspection.

Bulganin told the supreme soviet that Soviet Russia naturally prefers its own disarmament proposal but nevertheless will not refuse to consider other sincere plans.

In this connection he said Eisenhower's proposal still is under consideration. The Soviet Union is trying to find ways to get the positions of the two sides closer together and find agreement, the premier asserted.

"Everything will turn out well," Bulganin told the deputies today, and they broke into cheers.

The prime minister made a surprise return to the podium in the air-conditioned parliament chamber. He said his statement about the impracticability of the Eisenhower proposal had been "misunderstood" by the foreign press.

**Ike Leaving For Vacation**  
Washington—(AP)—President Eisenhower leaves today for his Gettysburg farm. He plans to remain there most of next week to study and act on bills passed by congress.

The White house said yesterday he will return to Washington briefly and then fly on to Denver Aug. 14 or 15 for a vacation "longer than several weeks."

## The Weather

Wisconsin—Partly cloudy tonight with scattered thunder-showers extreme south. Saturday fair north, partly cloudy south. Somewhat cooler tonight and south portion Saturday. Low tonight 60-65 north, 64-70 south. High Saturday 78-84. Winds 15-20 mph northerly.

Stevens Point Temperatures  
Yesterday's maximum, 92.  
Last night's minimum, 68.  
Noon today, 80.  
Precipitation, .33 inch.

Five-day forecasts:  
Wisconsin, Minnesota and Iowa—Temperatures will average 24 degrees above normal north and 47 above normal south. Normal high 77 north to 89 south. Normal low 53 north to 65 south. Slow warming trend over area becoming mostly hot and humid by Monday. Precipitation will average .75 to around .25 of an inch, locally more in thundershowers.
